Sir

(A) Introductory Comments

This paper is filed in response to the Final Office Action dated September 11th, 2003 in the captioned application. Applicant respectfully requests that the Examiner consider Applicant's amendments and remarks as putting the claims in condition for allowance.

Amendments to the Specification begin on page 3 of this paper.

Amendments to the Claims begin on page 4 of this paper.

Amendment to the Drawings begin on page 13 of this paper.

Remarks/Arguments being on page 14 of this paper.

An **Appendix** including the amended drawings, an affidavit signed by Mr. Siebrits, substitute pages of the specification, and pages of "Boundary Element Methods In Solid Mechanics" are attached following page 17 of this paper.

Status of the Claims

Claims 1-4, 6-10 and 12-19 are pending in this application.

All pending claims have been rejected.

Claims 1-4, 6-10 and 12-19 were rejected under 35 U.S.C §112 first paragraph.

Claims 1-2 and 13-19 were rejected under 35 U.S.C §103(a) as being unpatentable over *GOHFER* in view of *Linkov*.

The Examiner has indicated that claims 3, 4 and 6-12 would be allowable once the rejections under 35 U.S.C §112 are overcome, and for the dependent claims, if further rewritten to include all the limitations of the base claim and any intervening claim.
